# CAT-TASTIC TRAINING INFORMATION

Custom trainings for high  
performance teams.

# ABOUT INFRALOVERS

Our courses combine knowledge from our previous and ongoing consulting projects to deliver practical, hands-on experiences.

Based in Austria, we provide European-wide training and workshops available in German and English. Due to our positive experiences and the flexibility it offers, we mostly give our courses remotely. If requested, we are also available on-site.

Infralovers is an official HashiCorp partner since January 2022.

Our Experienced trainers have built up years of experience in our consulting projects. We only teach what we have personally experienced, tested, and applied with clients. This is the only way we can credibly and professionally teach our knowledge to our training participants.

**DI Edmund Haselwanter**  
*CEO & Chef Trainer*

# WHAT MAKES OUR TRAININGS UNIQUE

Anyone who has ever attended a training session where the trainer seemed to have only read a book on the subject knows that you can spot a “fake” expert from a mile away.

That’s why all our trainers are IT consultants with years of ongoing experience, teaching only topics in which they have genuine practical expertise. This “real-world” experience sets Infralovers apart from any other IT training company.

We focus on teaching innovation and current topics because, as consultants, we guide many clients on their journey from traditional infrastructure to utilizing Infrastructure as a Service in any form. Whether it’s through offerings from Amazon, Microsoft, Google, IBM, or on-premises setups with OpenStack, we have experience in all these areas.

At Infralovers, our goal is to share these experiences with our customers. Whether you’re a professional or a beginner, our trainings provide everyone with the skills they need.

APPROACH	LANGUAGE	LOCATION
INSIGHTFUL THEORY PRACTICAL EXERCISES	GERMAN ENGLISH	REMOTE ON-SITE
All of our trainings stand out with the right mix of theory and numerous labs, where participants can further deepen their learning through practical exercises and can put in use what they have learned immediately.	We offer all trainings in German and English. Our trainers are fluent in both languages and are eager to address any questions from the participants in detail.	We do all trainings remotely, as we have had consistently positive experiences with this format and it allows us to reach all participants more flexibly. Upon request, we also offer all courses on-site. From Iceland to Israel - we are well-travelled and adaptable to your preferences.  Please note that any additional costs incurred as a result of on-site training are not included in our course prices. We would be happy to provide you with a personalised quote.

# TRAINING TYPES

## HASHICORP ACADEMY

We are an official HashiCorp training partner and offer all courses from the HashiCorp Academy.

We provide these trainings in public and private formats, in German and English. All HashiCorp trainings have a clear focus on one of HC tools and how to use them efficiently & smart.

## INFRALOVERS TRAINING

### PRIVATE TRAINING FOR A PERSONAL EXPERIENCE

All Infralovers trainings are private courses with a group size ranging up to 12 attendees.

This allows us to address company-specific topics and questions in our trainings that are relevant to the entire group.

We are also happy to offer special solutions for your specific needs. Please feel free to contact us at [sales@infralovers.com](mailto:sales@infralovers.com) for further assistance. Maximum number of participants 12.

### PUBLIC TRAINING

These courses are open for bookings to the general public on specified dates. Public trainings will be held remotely and require a minimum number of 8 participants to take place. If you are in a different time zone than GMT +1, please ensure that you are online on time.

You will be notified of the training's confirmation 2 days prior to the scheduled date via email. If the training does not reach the minimum required number of participants, it may be postponed or cancelled.

### PRIVATE TRAINING

Private trainings are customized programs reserved exclusively for your group of participants. You can freely choose the date and group size.

We are happy to tailor the training to the specific needs and preferences of your group and organization, addressing concrete topics relevant to your company.

### TRAINING DURATION

The duration of our trainings varies depending on the specific topic. You can find all course durations in our catalog and price list.

### BUILD YOUR TRAINING

What may seem like an unusual combination could be exactly what you need. Share your preferences with us, and we will create a customized training tailored to your specific needs.

Feel free to reach out to us at [sales@infralovers.com](mailto:sales@infralovers.com) at any time.
